

GAABOW CONSTRUCTION COMPANY

Company Profile

Who We Are

Gaabow Construction and Real state development sector is the edifice on which all other GGSC subsidiary Companies are built on. Since its establishment in 1995, the sector has carried splendid construction and real estate projects for private and public institutions within and outside the country. This incredible achievement would have been impossible without its in house and out sourced highly skilled architects and complex facilities of architectural designs, soil testing, soil sampling, Mapping, surveying and provision of variety of style to choose from. Some of the milestones Construction programs implemented by GCC Construction and Real estate development sector are discussed below with pictures. GCC is proficient in the execution of either pre-designed or Design and build projects in construction and electrical installation engineering as well. We do have an extensive experience in all types of construction works and electrical/ security services in projects as diverse as commercial and retail complexes, social housing, schools, colleges, Universities, hospital & sand sports centers.

After detailed discussions into environmentally sound and workable schemes, our extensive experience allows us to develop the client's performance requirements. GCC achieved these, simply because of good communication and understanding and correct use of contract management tools such as reporting, progress

evaluation and an imaginative flexible approach to solving problems.
